

# VCT VISION™

**ELITE SERIES**

## THE POWER OF SECURITY

Our Elite Series RAWS systems offer digital recording on site and high-speed digital transmission of real time audio/video images and alarms to remote sites via standard telephone line, cellular transmission, or the Internet. The RAWS units can accommodate up to 16 digital or analog cameras

### ANYTIME

at the transmitting location. VCT Vision's SAVS™ proprietary video compression technology enables the RAWS unit to transmit full-motion digital audio/video signals to a PC or to your hand-held PDA from remote sites anywhere in the world where a communication channel is available.
